PROGRAM OBJECTIVE

This interactive workshop is designed to help professionals adopt enterprise-level agility using Scrum, SAFe 6.0, and JIRA/Rally. Participants will learn how to align business goals with agile practices, streamline workflows, and deliver customer value faster. The session aims to:

- Build a deep understanding of **Agile and SAFe 6.0 frameworks** for scalable transformation.
- Enable participants to **implement Scrum practices effectively** across distributed and cross-functional teams.
- Foster a **mindset of continuous improvement** and adaptability in rapidly changing business environments.

WHO SHOULD ATTEND?

This Jira Masterclass is tailored for individuals who want to become proficient in utilising Jira to its fullest potential for managing projects, tracking tasks, and streamlining workflows. This course can beeneficial for a wide range of professionals, including:

- Project Managers & Coordinators
- Product Managers & Owners
- Scrum Masters
- IT and Operations Managers
- Software Developers
- Business analysts
- Jira Administrators
- Development teams

KEY FEATURES

Expert-Led Training: Conducted by a globally experienced Agile Coach with practical insights from international enterprises.

Hands-On Practice: Real-time exercises in JIRA and Rally to simulate real-world agile project execution.

Comprehensive Learning: Covers Scrum, SAFe 6.0, Agile principles, and Business Agility for both beginners and practitioners.

Certification Opportunity: Participants receive an official certificate of participation from Scaptox.

Interactive Group Sessions: Engage with peers through case studies, team discussions, and simulation-based learning.
